

Data policies: local, national and international perspectives

Dr. Aynslie Ogden

Senior Science Advisor
Executive Council Office

University of Alberta

Data Summit
March 19, 2013

In development...

Guiding Principles?

1. Long term data collection
2. Standardizing data collection
3. Long-term data preservation
4. Open data (e.g. www.data.gc.ca)
5. Data warehousing
6. Data management planning
7. Collaboration at local, national and international scales
8. Resourcing data management

Exploring by Region

Explore by Subject

The Socio-Economic Web Portal is a collection of community-specific information and statistics relating to the social and economic setting of Yukon communities. The information is compiled from a variety of sources, including Statistics Canada, Yukon Bureau of Statistics and Yukon government departments. The portal is maintained and updated regularly by the Yukon Bureau of Statistics.

DISCUSSIONS

CONTACT US

The Yukon Permafrost Knowledge Network has been created to facilitate and encourage cooperative relationships between those active in permafrost related work and research activities.

Goals:

The goals of the Network are to encourage communication and to provide a forum for researchers, government, and industry to discuss developments related to the field of permafrost in the Yukon. The Network will also be a place where potential new sources of Yukon permafrost data can be identified that would be suitable for adding to the Yukon permafrost database.

Activities:

- List of Yukon Permafrost Network members with contact information & permafrost interests
- Provide publicly accessible Yukon Permafrost Data
- Start a Yukon Permafrost list serve
- Open door to drop by the Yukon Geological Survey Office

WELCOME TO YUKONWATER

Here, you'll find information about Yukon's water resources. There is information about how water is used, managed and monitored.

Please visit the water catalogue and use the interactive map to see where various types of water data have been collected by numerous different agencies.

Happy Canada Water Week!

Canada Water Week is the week to celebrate water across the nation. Held annually, it will be March 18 to 24 this year. The aim of this year's theme, "I Love My Water Body," is to build and strengthen the shared love of water in Canada's communities. In Yukon, several activities are taking place, including:

- Water-themed Arts Show
- Movie Screenings
- Family Fun Day at the Canada Games Centre

Science Practitioners, Professionals and Activities Database

The screenshot shows the homepage of the Yukon Government Science Database. At the top left is the Yukon Government Science logo. To its right is the text 'Database of Science Practitioners, Professionals and Activities'. Below this is a search bar with the placeholder text 'Enter a name or keyword' and a 'Search' button. To the right of the search bar are four circular icons representing 'PEOPLE', 'ACTIVITIES', 'SUBJECTS', and 'PUBLICATIONS'. Below the search bar is a paragraph of text: 'This Database is a regularly updated inventory of Science Practitioners, Professionals and Activities within Government of Yukon.' followed by a 'Log In' link and a 'Read more about this project' link. The main content area is divided into two columns. The left column is titled 'Scientific Domains and Subjects' and lists categories like 'Agriculture' and 'Animal health' with sub-items and counts. The right column is titled 'Recently Added to Database' and lists names under the heading 'People'.

In development...

Possible new initiatives???

Data collection and management:

1. Health surveillance system
2. Cumulative effects monitoring
3. Yukon community survey
4. Yukon business survey
5. Coordinated satellite base mapping program
6. Implementation of YG water strategy
7. Fire weather/road monitoring data warehouse

Possible new initiatives???

Data policy:

1. Records management data preservation policy
2. Consultant data policy
3. Industry data policy
4. Traditional knowledge policy
5. Access to and sharing of sensitive data policy
