# WELCOME TO PRISM

Today's performance is truly a celebration of the wide spectrum that IS the Department of Music at the University of Alberta. Performers from all facets of the department are coming together for one unforgettable afternoon of music that will keep you turning your head and hearing music from all angles and perspectives. Faculty, students, alumni and staff are joining forces to create a dynamic performance that demonstrates every aspect of our collective musical journey. There will be a palpable energy as the performers come in and out of silence in the acoustically brilliant Francis Winspear Centre for Music.

---

## HOW TO PRISM

To create the unique PRISM experience, we ask that you hold all applause between performances. The performers will be performing in various locations in the concert hall, and will begin and end with silence—allowing the energy of the audience to be sustained from one performance to the next through silence. We will welcome your applause at the end of each half of the concert, with appreciation!

We hope that you will experience something old, something new... something no one in the world has ever heard before, and especially something for YOU! The talent of our faculty and students runs very deep, as you will hear in this vast array of performers. Prepare to be dazzled, and enjoy the ride!
