### Notes:

1. Because Nunavut is self-governed by Indigenous people, there are few non-Indigenous people in Nunavut. Any studies of human subjects are likely to be primarily of Indigenous people.
2. This filter retrieves many geologically and atmospherically related works however these will not be retrieved when combined with health topics.
3. The place name "Apex" has not been searched because it retrieved a high level of irrelevant materials.
4. All studies prior to April 1, 1999, when Nunavut was created, will be indexed as Northwest Territories.
