

## **Fishing Livelihoods:**

## **Changes in the Fish and Water in Places we Consider Important**

Are community members able to fish for food and share fish within the community and region? How has harvest and the quality and quantity of fish harvested changed in the community over time? How should harvesting of fish be protected for future generations? (Volume3, May 2018)

#### SUMMARY

*Tracking Change: Local and Traditional Knowledge in Watershed Governance* is a six year research program funded by the Social Sciences and Humanities Research Council and led by the University of Alberta, Mackenzie River Basin Board, the Government of the Northwest Territories in collaboration with many other valued Aboriginal organization partners and universities. The broad goal of the project is to create opportunities to collaboratively document and share local and traditional knowledge (LTK) about social-ecological change in the Mackenzie River Basin, Lower Mekong and Lower Amazon Basins and determine its' role in watershed governance. In 2016-17, the project aims to address the following themes and priorities: <sup>1</sup>

#### Themes and Priorities for Tracking Change... Sub-Projects in 2016-2017

- ✓ historical and contemporary observations and perceptions of conditions and change in the health of the aquatic environment (e.g., water quality, quantity, flow, groundwater, permafrost conditions);
- ✓ historical and contemporary observations and perceptions of conditions and change in fish species (population, movements, diversity, invasive species) and other aquatic species (e.g., geese, beaver);
- ✓ sustainability of fishing livelihoods (e.g., harvesting levels and practices, diet, health, access issues, perceptions of change in the health of valued fish species);
- ✓ implications of change for governance (e.g., how maintain healthy relationships to the aquatic ecosystem, maintaining respectful and spiritual relationships, respecting treaty rights);

<sup>&</sup>lt;sup>1</sup> These priorities were recommended in a workshop with the NWT Water Stewardship Strategy Aboriginal Steering Committee and the Mackenzie River Basin Board Traditional Knowledge Steering Committee (Feb. 10, 2016). Additional input was solicited for the research priorities from Aboriginal organization partners and other members of the Project Team by email in October 2015.

## How is fishing changing?

	Question	Optional Answers
1	Do you or a member of your household currently fish for food?	Yes No
2	If you set a net, or go fishing, which areas do you most commonly visit?	<ul> <li>Great Bear Lake</li> <li>Great Bear River</li> <li>Other Lakes</li> <li>Mackenzie River</li> <li>Other Rivers</li> </ul>
3	If you set a net, or go fishing, which fish species do you most commonly harvest for food?	<ul> <li>Lake Whitefish</li> <li>Jackfish</li> <li>Lake Trout</li> <li>Arctic Char</li> <li>Arctic Grayling</li> <li>Coney</li> <li>Loche</li> <li>Other</li> <li>Other</li> </ul>
4	How many times do you set a net during the fall/winter (dene words?)?	<ul> <li>More than 10 times</li> <li>Between 5-9 times</li> <li>Between 1-4 times</li> <li>I didn't set a net</li> </ul>
5	How many times do you set a net during the spring/summer (dene words?)?	<ul> <li>More than 10 times</li> <li>Between 5-9 times</li> <li>Between 1-4 times</li> <li>I didn't set a net</li> </ul>
6	If you set a net are you harvesting more or less fish now than in the last 5 years?	<ul> <li>A lot more</li> <li>Somewhat more</li> <li>The same</li> <li>Somewhat less</li> <li>A lot less</li> <li>I don't know</li> </ul>
7	If you set a net, are you harvesting more or less fish now than in the last 10 years?	<ul> <li>A lot more</li> <li>Somewhat more</li> <li>The same</li> <li>Somewhat less</li> <li>A lot less</li> <li>I don't know</li> </ul>

8	Optional - When you set a net, are you harvesting more or less fish now than in the last 25 years?	<ul> <li>A lot more</li> <li>Somewhat more</li> <li>The same</li> <li>Somewhat less</li> <li>A lot less</li> <li>I don't know</li> </ul>
14	How often to you catch fish with cysts or lesions	<ul> <li>Often</li> <li>Sometimes</li> <li>Rarely</li> <li>Never</li> </ul>
14	How often do you catch fish with discolored organs?	<ul> <li>Often</li> <li>Sometimes</li> <li>Rarely</li> <li>Never</li> </ul>
	How often do you catch fish with too many bugs or worms to eat?	<ul> <li>Often</li> <li>Sometimes</li> <li>Rarely</li> <li>Never</li> </ul>
14	How often do you catch fish that are too soft?	<ul> <li>Often</li> <li>Sometimes</li> <li>Rarely</li> <li>Never</li> </ul>

# How does fishing benefit the household and community?

9	How much of your harvest do your share with your family?	<ul> <li>All</li> <li>A lot</li> <li>Some</li> <li>None</li> <li>I don't know</li> </ul>
10	How much of your harvest do your share with others in the community?	<ul> <li>All</li> <li>A lot</li> <li>Some</li> <li>None</li> <li>I don't know</li> </ul>
11	How much of your harvest do your share outside the community?	<ul> <li>All</li> <li>A lot</li> <li>Some</li> <li>None</li> <li>I don't know</li> </ul>
12	How much of your fish would you receive from others in the community?	<ul> <li>All</li> <li>A lot</li> <li>Some</li> <li>None</li> <li>I don't know</li> </ul>

13	How much of your fish would you receive from others in the Sahtu region?	<ul> <li>All</li> <li>A lot</li> <li>Some</li> <li>None</li> <li>I don't know</li> </ul>
----	--	--

## Can people still eat the fish?

14	How many meals of fish do you usually eat per week in the <u>spring/summer</u> ?	<ul> <li>More than 10</li> <li>Between 5-9</li> <li>Between 1-4</li> <li>None</li> </ul>
15	How many meals of fish do you usually eat per week in the <u>fall/winter</u> ?	<ul> <li>More than 10</li> <li>Between 5-9</li> <li>Between 1-4</li> <li>None</li> </ul>
16	How has your diet of fish changed since last year?	<ul> <li>I eat more fish</li> <li>I eat the same amount of fish</li> <li>I eat less fish</li> </ul>
17	How has your diet of fish changed over the last five years?	<ul> <li>I eat more fish</li> <li>I eat the same amount of fish</li> <li>I eat less fish</li> </ul>
18	How has your diet of fish changed over the last five years?	<ul> <li>I eat more fish</li> <li>I eat the same amount of fish</li> <li>I eat less fish</li> </ul>
19	How often in the last 3 months have you wanted fish and could not get it?	<ul> <li>Never</li> <li>Once</li> <li>2-3 times</li> <li>4-5 times</li> <li>More than 5 times</li> </ul>
20	Did you harvest enough fish to meet your needs this past year?	□ No □ Yes

#### What kind of knowledge is most useful in helping people cope with change?

21	How confident (safe) are you about the health of the fish you are eating?	<ul> <li>Very confident</li> <li>Somewhat Confident</li> <li>Not Confident</li> <li>I don't know</li> </ul>
----	---	---

22	How confident (safe) are you about the health of the water you are drinking?	<ul> <li>Very confident</li> <li>Somewhat Confident</li> <li>Not Confident</li> <li>I don't know</li> </ul>
23	What source of knowledge is most important to your understanding of health of the fish and about harvesting?	<ul> <li>My own experiences and observations</li> <li>Elders and other Fishers</li> <li>Resource people and staff working for our leaders;</li> <li>Government</li> <li>Industry</li> <li>Other Organizations</li> <li>Television, newspapers, radio and books</li> <li>Doctors, nurses and other medical professionals</li> <li>Other</li> </ul>
24	What sources of knowledge do you think most influences your decisions about where to fish and what fish is healthy to eat?	<ul> <li>My own experiences and observations</li> <li>Elders and other Fishers</li> <li>Resource people and staff working for our leaders;</li> <li>Government</li> <li>Industry</li> <li>Other Organizations</li> <li>Television, newspapers, radio and books</li> <li>Doctors, nurses and other medical professionals Other</li> </ul>
