

about the journal

Eureka is a student-founded and student-run initiative. This journal offers undergraduate scientists the unique opportunity to share their discoveries with the scientific world. Our mission is to support and promote quality peer-reviewed research by undergraduate scientists.

from our authors!

"Eureka has offered me many opportunities to get familiar with knowledge mobilization in academia, such as article publications, poster presentations, and more!"
~ Andres Dorado Solarte

"Publishing with Eureka as an undergrad expanded my research skills and helped develop my understanding of academic publishing"
~ Myla Sept

"Publishing as an undergrad was a beneficial learning experience, boosting my writing skills, confidence, and grad school application."
~ Tristan Mula

"Publishing our undergraduate research with Eureka allowed us to share our initial findings with fellow scientists and inspire future research!"
~ Keeya Beausoleil

Research on T cell
Biology Started a
Revolution in Cancer
Therapy Development
Spring 2024
By Tristan Mula

Breaking the Ice:
Exploring the Link
Between Glaciers and
Mental Well-being
Fall 2023
By Keeya Beausoleil, Judy
Moon, and Rowan Mah

what we publish featured interviews

Interview Featuring Michael Houghton

Dr. Michael Houghton was honored with the *Nobel Prize in Physiology and Medicine* in 2020. Eureka asked Dr. Houghton about his career, advice to his undergraduate self, and publication experiences.

Interview Featuring Fredrick Van Goor

Dr. Fredrick Van Goor is the Vice President and Head of Cystic Fibrosis (CF) Research for Vertex Pharmaceuticals. He and his colleagues were recently awarded the *2024 Breakthrough Prize in Life Sciences* for their contributions to CF.
