

## **Academic CV and Job Searching for new graduates**

James Hogan

Department of Mechanical Engineering, University of Alberta., Edmonton, Alberta, Canada

This workshop will cover topics related to applying for an academic position in Canada and developing an academic CV, including considerations for being a Professor; CV development; application components and process; application review; screening call structure and questions; and interview structure, preparation, and questions.

Examples of applications will be shared, and there will be interactive in-workshop exercises (e.g., CV review, mock interviews).

Participants are required to bring a paper copy of their CV for feedback.
