Hi Dennys,

Thank you for the input and assistance you have provided to us thus far in developing the Digital Canada 150 (formerly the Digital Economy Strategy).

21(1)(a).21(1)(b)

We are working under fairly constrained timelines so could you please provide us with completed templates by noon Monday, January 20th.

If you have any questions, please don't hesitate to call.

Hi Josie,

I don't think CMB made any of the changes from the comments you provided to them earlier this morning so I'm not sure why they sent us a new version. You may wish to reiterate your comments/questions.

Below, I've listed by pillar the initiatives that they have been missing that may be intentional or accidental (we agreed that the PCH ones for the NRC were likely intentional and as such have not included them in the list). I've also highlighted instances of "possible repetition."

Other typos/formatting issues are in the attached document using tracked changes

Of note the statement pieces on pages 7-8 come across as repetitive and unclear. Each one starts with 69(1)(g)re(e)

69(1)(g)re(e) seems problematic to me.

OK, here's a combined version – I have flagged the ones that still need answers (not all are DPB, some are DGTP, etc. unless you feel otherwise). If you want me to touch base with the advisor currently in charge of Computers for Schools to get their thoughts, I can do so.

We are also a bit light on Qs for digital government and digital content, so if TBS and PCH could be consulted for some proposed Qs that would be great. Also, not sure the stakeholder reaction section at the end belongs in this document. We can discuss.

Hi Josie, I know your stance on working with PCH on approvals, but we are really hitting a wall in terms of getting the OK on the minor changes we made to the [REDACTED] 69(1)(g)re(e) These changes (in bullets below) [REDACTED] [REDACTED] 69(1)(g)re(e) as well as correct Mme. d'Auzac de Lamartinie's title.

Could I ask that you forward these three bullets to your policy contact at PCH, with a brief text to say that CMB has made these three changes to ensure the text is as accurate and complete as possible, that CMB has checked these changes against public sources (namely, the PCH website and the Historica website), and that if you don't hear back from your policy contact, we will assume there are no inaccuracies and proceed with publication? I am happy to provide the full text of the chapter if you think it will help.

Thanks, james

Thanks James. We shared with Chris and he is cool so far with the list but thinks we need to tighten up some of the answers and make them a bit more commsy (I feel like this word should be added to the dictionary at this point!). We can work on some and then get your thoughts.

If you want to get the CFS Qs that's cool. If not, we can.

*computers for schools*

Q7 should be us, not DGTP.

For the Qs that you have identified DGTP or ICTB do you want us to collect and coordinate? If it's you Q24 should be ICTB.

For Q17 you may have to contact CSE comms, if you don't have anyone I am sure Bruce can help us out.

As for TBS and Heritage, it may be better to go through their comms group. We would have to go through Lawrence to get Qs because their document has only been shared at the ADM level so the analysts will likely be confused and PCH won't give us anything without Min approval. Their comments on the paper are currently making their way through their approval system. If this is not possible, let me know and we will figure something out over here.

Hi Josie,

Here are the proposed Budget 2014 bullets that you might want to include in the [redacted] 21(1)(a).21(1)(b) document for Francine. Not sure if you want to include all of them. She said to send her the content and she will add the text into the document. There was also a section at the bottom of the table we needed to update, the second part below in bold, text also provided.

**Continue to advance actions supportive of the Digital Economy Strategy**

Budget 2014 advances the digital economy agenda with a number of key investments, including:

- [redacted] 21(1)(a).21(1)(b) to extend and enhance access to high-speed broadband networks to a target speed of 5 megabits per second for up to an additional 280,000 Canadian households.

Conn.  
Can

[redacted] 21(1)(a).21(1)(b)

- \$40 million towards supporting up to 3,000 internships in high-demand fields.

Yes, I think help with the Para's would be good, thank you! :) Do you think you can start the 69(1)(g)re(e)  
69(1)(g)re(e) Saaqib is going to do 69(1)(g)re(e) I will work on  
Protecting Canadians. If you work on the doc on your computer and then send me the info I can merge.

I'm adding footnotes for the info if we need to go back to the source.

Thanks,  
Sarah

For the first item he only asked for the IC actions so as long as those are done we are ok. Lawrence wanted the all of the items so we can work on those later.

The second request is only for the Qs so I think based on what we had before we can come up with a couple of additional Qs to make the deadline.

Sarah if you need help with the paras let me know and I will do some of them, my day is not super crazy today.

Materials for the Min?

1. program descriptions (those paras to support the bullets in the doc)?
2. external Q+As?

Can I see draft of 1 and our list of Qs by the end of the day?

Colleagues,

Please find attached 69(1)(g)re(e) We are going to be sending comments on it today, with hopes of receiving a new version on Wednesday or Thursday of this week. I had planned to send you that version for comment. However, we have now been asked to provide a version to the Minister by end of day Friday of this week. Given those timelines, I thought it made more sense to send you this version so you have time to review and we can respond to any of your comments before it goes to the Minister.

Hi Saaqib,

Thank you for providing this information. We've been asked to map out the recommendations in collaborating with CMB SITT advisors. From my understanding, additional information required would include:

- o Recommended venue for an announcement
- o Policy considerations/timing

Should anything else come up, CMB will be in touch.

Many thanks for your help.

Cheers,  
Susan

Hi Susan

We met with Corinne and CMB this morning on Digital Canada 150 and were asked to pass along the following documents as we understand that you provide the template expertise in CMB.

We have attached the completed templates for DC 150 that had been submitted to us from various parts within the Industry Canada portfolio. Please let us know if there is additional information that we should be asking for on your behalf.

For reference, here is the DC 150 Announcements document that was developed based on the above templates. My understanding is that a new document/template will be developed in Excel capturing this information as well as the added info needed by CMB.
